DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 1, is 'stone' singular or plural (many pieces of stone)? Line 3, the terms 'keft and right' are unclear. 'so as to be capable' is unclear. What is elevating? 'simultaneously' with what? What 'side' of the columns are being claimed? Line 5, what does 'track type' mean? Line 5, 'each' refers to what? The 'belt saws'? Line 6, 'parallel' to what? 'With driving pulleys....platforms' is referring to the mounting 'in parallel' or addition claimed elements? What are these pulleys driving? Last line, 'while rotating' refers to what? What is 'rotating the driving pulleys'?

Cl. 2, what does 'horizontally elongated' mean? The 'front and rear' terms are unclear and lack antecedence. What are 'vertical gears'? 'geared into the left and right' is unclear. The terms 'left an right' are unclear. Cl.3, each pair of aux. pulleys' lacks antecedence. How do these aux. pulleys 'thereby adjust an interval'? Cl. 4, 'the upper plate' lacks antecedence. 'left and right' are unclear. What do these refernces refer to? The plate or sprockets? This claim is totally unclear and lists elements not structurally related.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1 is rejected under 35 U.S.C. 102(b) as being anticipated by WO 93/14914.

WO 93/14914 discloses a stone slicer having a base (42) with four columns (4) having two platforms (8,8') to be risen and lowered on columns, belt saws (26) wound around driven (via motor 16) and idle pulleys (10) for driving belt saws to slice the stone.

Allowable Subject Matter

5. Claim2-4 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
